

# El Dorado County

## Frequencies:

- 159.555 - West Slope Dispatch (136.5)
- 159.690 - West Slope Channel 2 (136.5)
- 159.600 - Sierra Dispatch
- 155.790 - Detectives

## Unit Designators

Example: 20 Charles

The first digit represents the "zone". The second number represents the beat. Typically, only zones 1 and 2 have multiple beats.

Beats are subdivisions of the zone starting from 0 (western most end) to 2 (eastern most end).

Units with a designation of 60, 61, etc. are watch commanders (supervisors).

The phonetic letter following the numbers designate the shift.

- "A" (Adam) - Morning Shift (circa 6-7 a.m.)
- "C" (Charles) - Swing Shift (circa 3-4 p.m.)
- "E" (Edward) - Night Shift (circa 9-10 p.m.)

Typically during the summer months, you will commonly hear a "B" Boy shift. This is in between the morning and swing shifts to provide extra day-time coverage.

- "D" David units are K-9s and typically there are only two on duty, one in zone 1 and one in zone 2. (Example, 20 David)
- "T" Tom units are Trainees. One "rookie in training" paired up with a veteran. (Example 22 Charles Tom)
- "2" Two units are two deputies paired up in a unit. (Example 12 Adam 2)
